

# We know ObamaCare will Destroy America... Who's looking at ObamaCORE?

**Bill Gates is funding Obama's takeover of K-12 education and no one is blinking an eye.**

• **45 states are implementing ObamaCORE...Obama's unconstitutional Common Core State Standards for K-12 education** which are national (international) standards & assessments created by two assessment companies funded by the 2008 stimulus.

The Organisation for Economic Cooperation and Development (OECD) developed the United Nations Millennium Declaration. The OECD sits on the Bill Gates-funded Advisory Group to the National Governor's Association to implement the Common Core State Standards.<sup>[1]</sup>

**Q: Why does it matter that Bill Gates is financing the United Nations Millennium Development Goals?**

See Gates calling for 0% carbon emissions through population control:  
<http://www.youtube.com/watch?v=F3WXcRfsrTQ>

**A: 2 of their 8 goals are Universal Education & Sustainable Development (Agenda 21).**

Gate's money funds the UN's goals and they're being implemented in our local K-12 schools right now!

**Q: Why did Microsoft (Gates) sign a contract with UNESCO (United Nations Educational, Scientific and Cultural Organization) in 2004? <sup>[2]</sup>**

**A: "to remold the entire American system" into "a seamless web that literally extends from cradle to grave and is the same system for everyone," coordinated by "a system of labor market boards at the local, state and federal levels" where curriculum & "job matching" will be handled by counselors "accessing the integrated computer-based program." <sup>[3]</sup>**

Education Secretary Arne Duncan at the Sustainability Education Summit in Sept. 2011 said,

"Today, I promise you that [the Department of Education] will be a committed partner in the national effort to build a more environmentally literate and responsible society... We must advance the sustainability movement through education... Education and sustainability are the keys to our economic future-and our ecological future. <sup>[4]</sup>

**The UN called 2005-2014 the "Decade of Education for Sustainable Development." <sup>[5]</sup>  
By 2014, their education "standards" will be implemented into K-12 American Education.**
